About Brad:

Brad is 26 and one of the most entertaining and fun people you could ever meet. He is the type of guy who is always there for you even though you may never know it. His life has always been care-free where when things go wrong he fixes them and gets on with it, never dwelling on the past, and always looking for the next party! Cancer has been no more than a big pain in the butt that makes him feel nauseous and sit in hospitals a lot!

The greatest news thus far has been that the first round of chemo is working and the tumor has reduced in size enough so he's feeling better! But, we still have a long way to go considering the size of the tumor.

From Brad himself:

I want to sincerely thank everybody for being so supportive and for all the wishing, praying and hoping you have sent my way. Your kindness and generosity is much more than I could ever have expected!
